## CBI EUROPE

your partner in interior design.

# 1

CBI Europe has been **producing and supplying innovative, high-tech systems for interior finishes to customers all over the world for thirty years.**

CBI Europe is unique in its ability to supply integrated floor, wall and ceiling products, and is the preferred supplier for designers of innovative, stylish, comfortable and technically advanced interiors.

All CBI products are designed for optimum modularity, durability, sound absorption, safety, functionality, versatility, inspectability and rapid installation. CBI products also come in a vast range of colours, finishes and sizes.

Thanks to its strategic location in central Italy, in the heart of the Mediterranean region, and centralised production plant **occupying 30,000 m<sup>2</sup> indoors and 80,000 m<sup>2</sup> outdoors**, CBI Europe is the ideal partner for Middle Eastern, African, Central and Eastern European customers.

**All phases of production, from concept to standard or customised finished product, are completed inside CBI Europe's centralised plant in Osimo, in the province of Ancona.** The latest generation of automated production machinery and rigorous quality control ensure compliance with all applicable standards. A highly trained and efficient technical staff is always on hand to help in the selection and purchase of products and services, and to assist with design and cost or investment budgeting.

**CBI EUROPE**

GLOBAL WELLBEING

## Assurance of quality.

The **Italian Green Building Council** is the Italian association for construction sector companies intent on making buildings more environment friendly, sustainable and capable of supporting living communities.

The members of GBC Italy promote environmental, economic and social sustainability through innovation in design, construction and use of buildings. In addition to handling **LEED certification** activities, GBC Italy also promotes the development of a 'knowledge supply chain' to diffuse new ideas, concepts and tools, and to raise awareness in the area of sustainability.

**EC Marking** Directive 89/106/EC establishes that only products that satisfy specific criteria of safety and reliability can enter and circulate within the European Economic Area.

**ISO 9001:2008** The quality of the entire CBI Europe products and manufacturing process is certified to ISO 9001:2008.

raised access floors

**Factory finished and bare panels systems: inspectability, technology, and freedom of design.**

CBI Europe is a leading manufacturer of raised access floors, with an output of over a million square metres a year. CBI Europe's integrated floor systems are **100% made in Italy**. Twenty five years of development and the experience gained from installations in 70 different countries around the world ensure that CBI Europe's raised floor systems solve all the problems normally caused by incompatibility between architectural restrictions and the perpetual changes demanded by evolving technology. CBI Europe's floors also create environments with a high level of sustainability and livability.

**Where** \_ new-build and refurbished offices, banks, operations centres, control rooms, hospitals, homes and public buildings.

**How** \_ using easy access, inspectable panel structures to create high-tech raised floors in a wide range of types and finishes.

**Why** \_ CBI Europe's integrated floor systems are versatile, high-tech, sustainable, easy to install and inspect, and the perfect solution for all types of structural and design requirements.

- **FACTORY FINISHED PANELS**  
Woodcore panels / Calcium sulphate panels / Glass panels
- **BARE PANELS**  
Fully steel encapsulated panels / Double alufoil panels / Tongue&groove panels
- **RADIANT FLOORS**  
The-Floor / Tongue&groove radiant: energy saving and excellent comfort.
